

**Cardiac Solutions to benefit the American Heart Association with a Westside  
Heart Walk: Surprise Community Park  
Saturday, February 27, 2010  
Health Fair Expo**

Cardiac Solutions is participating and sponsoring the American Heart Association's Start! Heart Walk in the west valley, and we need your support!

On Saturday, February 27, the American Heart Association will hold its annual Start! Heart Walk in Tempe and at the same time the Surprise Community Park will hold a walk for the west valley. The Walk is a healthy, fun, family event. It promotes exercise as part of a heart-healthy lifestyle and raises funds for research and programs to fight cardiovascular diseases. These diseases are our nation's No. 1 killer, claiming nearly a million American lives a year — more than the next five leading causes of death combined.

We are now asking for vendors who would like to participate in the Expo at the walk. This would give your business the opportunity to show the community and walk participates how your business could benefit them. The walk will be marketed to patients and seniors in the west valley.

Funds raised through the Heart Walk support research, community service and public and professional education programs. Donations will help the American Heart Association make important advances against heart disease and stroke. Donations can be made online or at registration at [www.phoenixheartwalk.org/cardiacsolutions](http://www.phoenixheartwalk.org/cardiacsolutions).

If you would like to participate in the Expo just complete the information below and return the form. The Start! Heart Walk is quickly approaching; the deadline for the Expo registration is Jan. 29, 2010.

Thank you for your support of the Start! Heart Walk. Together we **will** make a difference!
